RV Signature Series

2026 Price List & Specifications

Signature Series

Signature Series

The Benchmark in 4WD Drawer Systems

The RV Storage Solutions Signature Series takes everything trusted about our Australian-made drawer systems and elevates it with a more refined finish, premium inclusions and considered details throughout.

Constructed from alloy and precision-made for each vehicle, the Signature Series delivers the strength, reliability and practical storage RVSS is known for, upscaled to include integrated LED lighting, powder-coated drawer bases, smooth black trim and black carpet create a cohesive, factory-style finish that complements the interiors of today's vehicles.

Every system also includes a stainless-steel drawer lid, gas struts for smooth and supported access, and a uniquely numbered Signature Series plaque. The signature belongs to the late Mark Oliver, founder and creator of RVSS, honouring his legacy and recognising the values, expertise and standards he established that RVSS proudly continues to uphold.

With multiple configurations, interchangeable wing kits and vehicle-specific fitment, the Signature Series can be tailored to the way you tour, work and travel. Proudly Australian made and backed by our Lifetime Warranty, it is more than a premium drawer system—it is the RVSS benchmark.

The Signature Series Difference

- Integrated LED drawer lighting
- One stainless steel drawer lid included with every system
- Gas-strut-assisted drawer lid
- Powder-coated drawer bases
- Lightweight, durable alloy construction
- Black carpet for a refined, factory-style finish
- Smooth black trim
- Individually numbered Signature Series plaque
- Precision vehicle-specific fitment
- Multiple drawer configurations
- Interchangeable wing kits

- 100% Australian made
- ADR compliant
- Backed by a Lifetime Warranty

Inside This Guide

This Signature Series Price Guide includes:

- Configuration Overview

How to choose your Signature Series configuration

Every 4WD setup is different and so is the way it's used.

The Signature Series has been designed to offer flexible drawer configurations that suit you whether you are touring, heading away for weekends, or using your vehicle every day.
Selecting the right system comes down to three key considerations: **how you use your vehicle, how much storage you need, and how you want to access it.**

This guide will help you narrow down the best configuration for your needs.

Step 1: Consider How You Use Your Vehicle

Touring & Extended Travel

If your vehicle is built for long-distance touring, consider:

- Fridge placement and access
- Recovery gear storage
- Food, tools and camping equipment separation
- Weight distribution for long trips
- Durability for corrugations and remote travel

Touring setups often benefit from dual drawers or a drawer and fridge combination to keep essential gear organised and accessible.

Weekends Away

If you use your vehicle for camping trips and weekend escapes, flexibility is key.

Consider:

- Easy packing and unpacking
- Dedicated storage for camping gear
- Quick access to frequently used items
- Efficient use of space without overbuilding your setup

A balanced drawer system allows you to stay organised while maintaining room for additional cargo when needed.

Everyday Use

For many owners, the vehicle needs to work every day — not just on holidays.

Consider:

- Secure storage for tools or equipment
- Keeping loose gear contained
- Maintaining practicality for school runs or daily driving
- A clean, integrated fit that doesn't compromise usability

A well-chosen configuration ensures your storage system enhances your vehicle without limiting its versatility.

Step 2: Choose Your Drawer Layout

The Signature Series offers multiple drawer configurations to suit different storage requirements.

- **Twin drawer system variation**
  Balanced storage for organised gear separation.
- **Single Drawer with low platform for fridge storage**
  Ideal for touring setups with integrated fridge access.
- **Use of fridge drawer with storage drawer**
  Maximum single-compartment storage.

Each system is engineered for strength, smooth operation and maximum internal capacity.

Step 3: Consider Optional Add-Ons

Enhance your system with:

- Chopping Board
- Cargo barriers
- Drawer dividers
- Tie-down points
- Additional drawer lid for extra prep space

Optional accessories allow you to tailor your setup to suit your exact requirements.

Still Unsure?

If you're unsure which configuration suits your vehicle or intended use, our team is here to help.

Contact RV Storage Solutions for personalised advice and expert guidance.

"The Classic"

Specifications & Information

The Classic - Twin Drawer System

Balanced. Proven. Built for Real-World Use.

The Classic is the foundation of the Signature Series range. Featuring two full-height drawers, this configuration delivers practical, organised storage with equal capacity across both drawers.

Designed for touring, weekends away and everyday use, The Classic provides structured storage without overcomplicating your setup.

Best Suited For

- Touring and camping setups
- Recovery gear and tool storage
- Owners wanting simple, structured organisation
- Dual-purpose vehicles used for work and recreation

Key Benefits

- Two independent full-height drawers
- Heavy-duty stainless steel runner system with dual-bearing support for smooth operation
- Secure and accessible storage
- Even weight distribution
- Maximum usable internal space

The Classic is the benchmark — reliable, versatile and built to last.

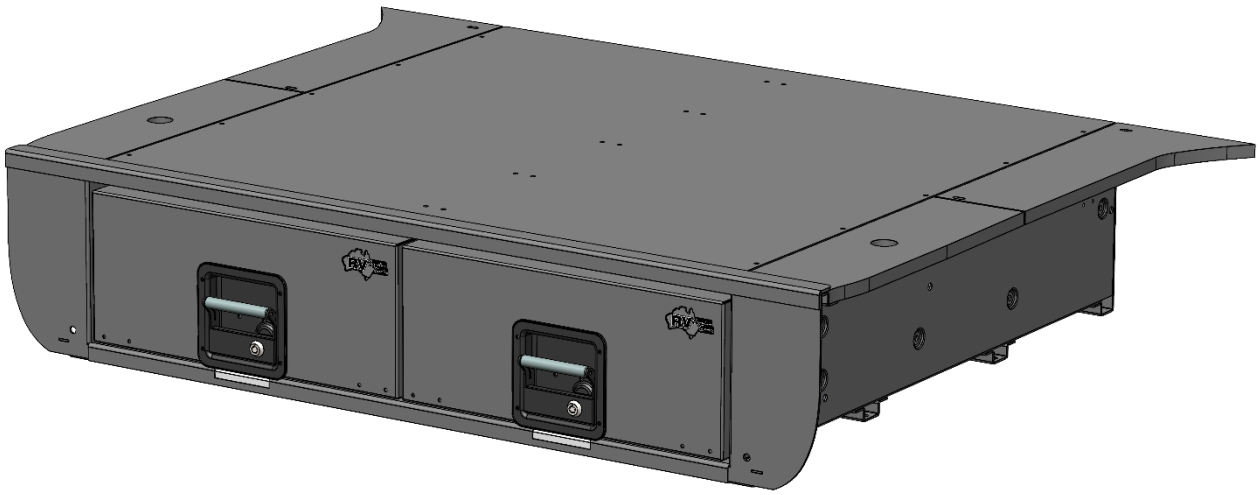
"The Classic"

The Classic - Twin Drawer System

Balanced. Proven. Built for Real-World Use.

The Classic is "The OG" of drawer systems, the traditional twin drawer system with an overall height of 275mm makes for the perfect balance between storage space while still providing that flat floor to store other items such as the family dog, the pram, kids school bags, groceries and more.

With the option to then secure a stand-alone fridge slide on top if you need, the possibilities do become endless.



"The Classic Plus"

Specifications & Information

The Classic Plus - Twin Drawer System + Integrated Slimline Drawer

Smarter Organisation Without Increasing Footprint

The Classic Plus builds on the proven Classic platform by integrating a slimline drawer beneath the left-hand main drawer. This creates a split-level storage system designed for improved organisation of smaller or frequently used items.

The right-hand drawer remains full height, while the left-hand side is intelligently divided to maximise layered storage without increasing overall system height.

Best Suited For

- Touring setups carrying mixed gear sizes
- Owners wanting better separation of smaller items
- Weekend adventurers seeking more structured storage
- Setups requiring easy access to tools or essentials

Key Benefits

• One full-height primary drawer (RHS)
• Split-level left-hand drawer system with integrated slimline drawer
• Improved organisation for smaller gear and accessories
• Efficient use of vertical storage space
• Maintains Signature Series strength and durability

The Classic Plus delivers enhanced organisation while retaining the versatility of the twin drawer platform.

"The Classic Plus"

The Classic Plus - Twin Drawer System + Integrated Slimline Drawer

Smarter Organisation Without Increasing Footprint

With a twist to The Classic, you get the traditional twin drawer system with an added slimline drawer which is perfect for those vehicles without tailgates, an instant prep space at the correct height for use, you can see why this set up is a much loved one. With an overall height of 365mm it still makes for the perfect balance between storage space while still providing that flat floor to store other items such as the family dog, the pram, kids school bags, groceries and more.

Depending on the vehicle you are looking to fit it to, you will find the overall length of the drawer system may vary but this information can be found on the vehicle specific page.

"The Classic Max"

Specifications & Information

The Classic Max - Twin Drawer System + Dual Slimline Drawers

Maximum Organisation. Fully Dialled.

The Classic Max is the most advanced evolution of the Classic platform. Featuring two primary drawers complemented by dual integrated slimline drawers, this configuration provides layered storage across both sides of the system.

Designed for fully equipped touring builds and those who demand precision organisation, The Classic Max ensures every item has a dedicated place.

Best Suited For

- Extended touring and remote travel
- Fully equipped 4WD builds
- Owners carrying recovery gear, tools, cooking equipment and accessories
- Those who prioritise structured, layered storage

Key Benefits

• Twin primary drawers with integrated dual slimline storage
• Layered organisation across both sides
• Enhanced separation of small and large gear
• Efficient vertical space utilisation
• Built to Signature Series strength standards

The Classic Max is engineered for those who want their setup organised, refined and ready for anything.

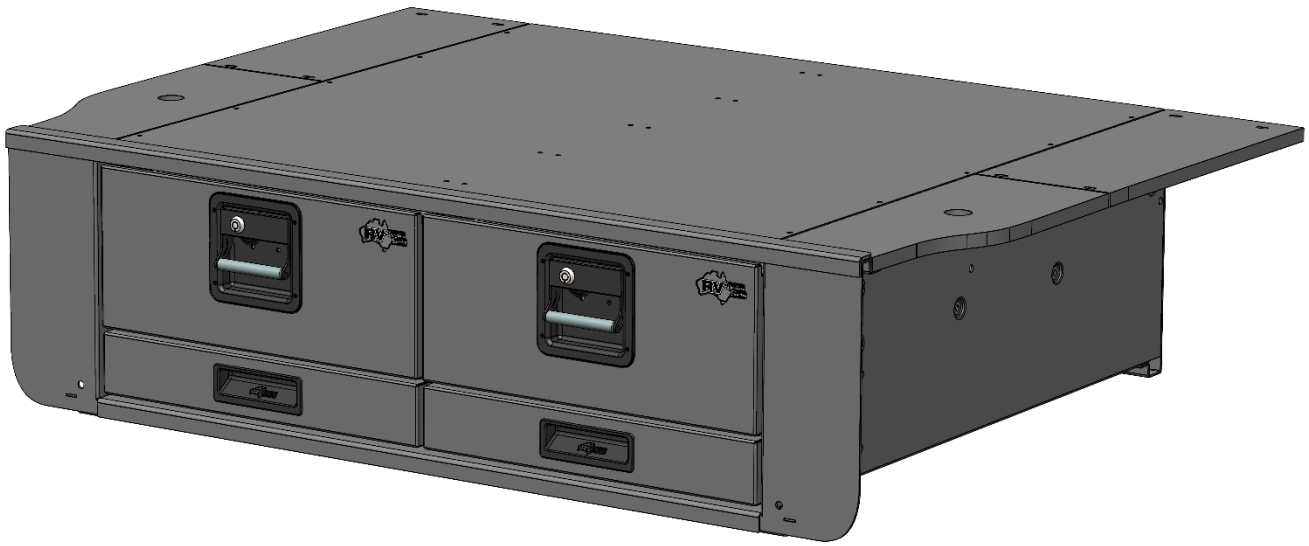
"The Classic Max"

The Classic Max - Twin Drawer System + Dual Slimline Drawers

Maximum Organisation. Fully Dialled.

With The Classic Max, we have maximised the drawer availability to give plenty of prep space, storage space and still the flat floor above for all of those other bits and pieces that need to be carried around in the vehicle, whether it be a fridge secured to the top for those trips away or other things as you use the vehicle for your daily drive.

This set up also has an overall height of 365mm to accommodate the additional storage drawers within it. If organisation is your jam, then this is the drawer system for you.



"The Weekender"

Specifications & Information

The Weekender - Fridge Drawer + Full-Height Drawer

Adventure Ready. Everyday Practical.

The Weekender combines dedicated fridge storage with a full-height drawer, creating the ideal balance between refrigeration access and organised gear storage.

Designed for touring, weekends away and everyday versatility, this configuration keeps food and essentials easily accessible while maintaining structured storage for recovery gear, tools or camping equipment.

Compatible with 30L Engel, Dometic and Bushman fridge drawers, as well as 40L Evakool and Ironman fridge drawers.

Best Suited For

- Weekend camping setups
- Touring builds requiring integrated refrigeration
- Owners wanting simple fridge + storage combination
- Everyday vehicles with touring capability

Key Benefits

• Dedicated fridge drawer compartment
• One full-height primary storage drawer
• Balanced weight distribution
• Easy access to food and gear
• Maintains Signature Series strength and durability

The Weekender is built for those who want capability without overcomplicating their setup.

"The Weekender"

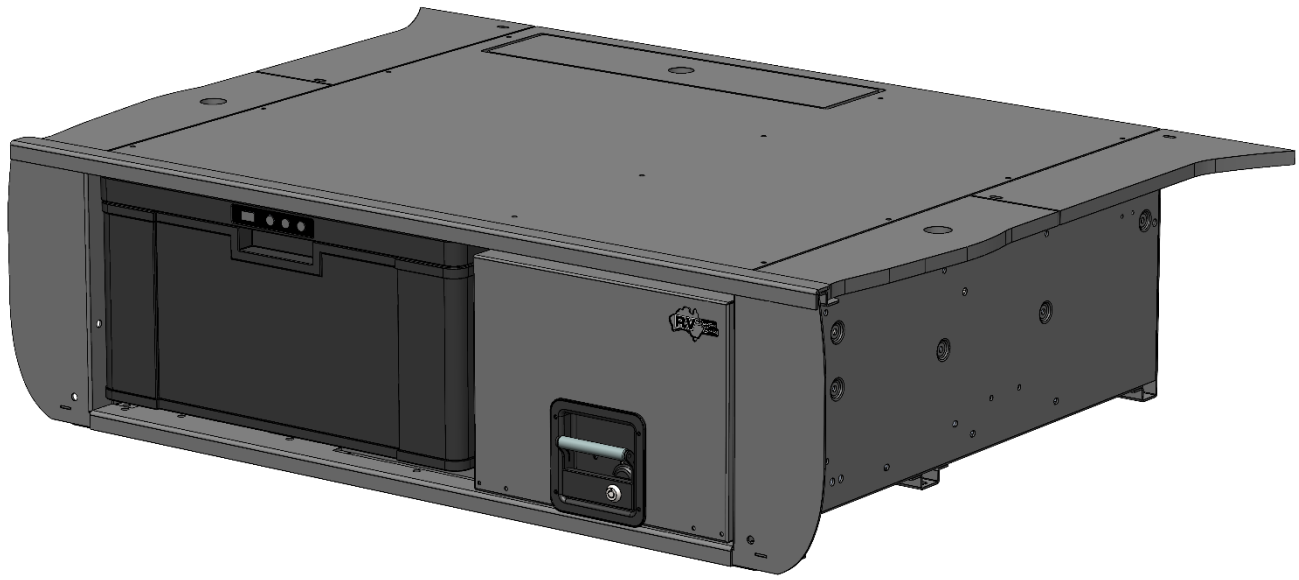
The Weekender - Fridge Drawer + Full-Height Drawer

Adventure Ready. Everyday Practical.

The Weekender is a great mix of a storage drawer and fridge drawer plus with the bonus of a flat floor above like The Classic.

With options of different fridge drawers to suit your needs, you will be sure to find what you are looking for – we can accommodate 30L Bushman, 30L Engel, 30L Dometic, 40L Evakool or 40L Ironman fridge drawers which are a perfect size for a "weekend" away, a day trip to the beach/bush or as an overflow fridge or even freezer when you are towing. When ordering the fridge drawer will always be to the **PASSENGER SIDE** unless specified otherwise and pricing **DOES NOT** include the fridge drawer however RVSS can supply it for you if needed.

The overall height will vary depending on the choice of fridge drawer, but this information can be found on the vehicle specific pages.



"The Weekender Plus"

Specifications & Information

The Weekender Plus - Fridge Drawer + Split Storage Drawer

More Organisation. Greater Flexibility.

The Weekender Plus builds on the Weekender platform by incorporating a split-level storage drawer alongside the fridge drawer, including an integrated slimline drawer for smaller items.

This layered storage design allows for improved organisation of cooking equipment, tools or accessories while maintaining dedicated fridge access.

Compatible with 30L Engel, Dometic and Bushman fridge drawers, as well as 40L Evakool and Ironman fridge drawers.

Best Suited For

- Touring setups carrying mixed-size gear
- Campers wanting improved internal organisation
- Owners who prefer separated storage zones
- Weekend adventurers seeking smarter packing

Key Benefits

• Dedicated fridge drawer compartment
• Split-level primary drawer with integrated slimline storage
• Improved gear separation
• Efficient use of vertical space
• Signature Series durability and reliability

The Weekender Plus delivers smarter organisation without increasing system footprint.

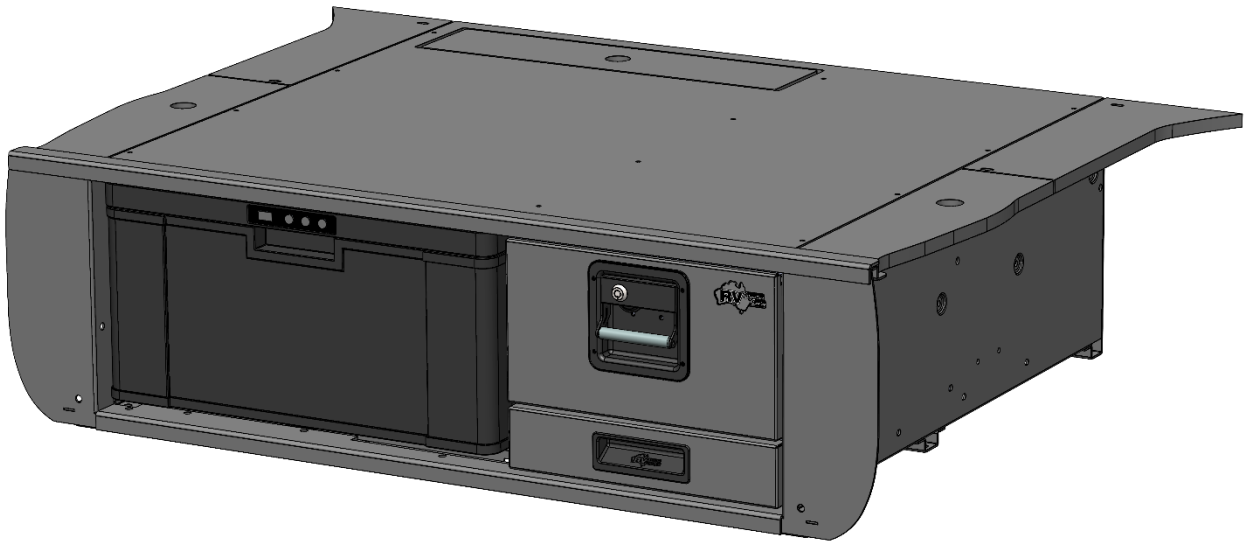
"The Weekender Plus"

The Weekender Plus - Fridge Drawer + Split Storage Drawer

More Organisation. Greater Flexibility.

The Weekender Plus has a good mix of storage and fridge space with the additional slimline drawer under the larger drawer providing a great work space for you to make that quick lunch or cuppa when travelling. The slimline drawer comes standard with a stainless steel drawer lid making clean up even easier but if you are looking to option up your drawer system, why not add a chopping board to the lid, all Australian Made to compliment the rest of the Aussie Made drawer system.

With options of different fridge drawers to suit your needs, you will be sure to find what you are looking for – we can accommodate 30L Bushman, 30L Engel, 30L Dometic, 40L Evakool or 40L Ironman fridge drawers which are a perfect size for a "weekend" away, a day trip to the beach/bush or as an overflow fridge or even freezer when you are towing. When ordering the fridge drawer will always be to the **PASSENGER SIDE** unless specified otherwise and pricing **DOES NOT** include the fridge drawer however RVSS can supply it for you if needed.



"The Long Weekender"

Specifications & Information

The Long Weekender - Fridge Drawer + Split Drawer + Slimline Fridge Storage

Maximum Touring Organisation. Fully Equipped.

The Long Weekender is the most advanced configuration in the Weekender range.

Featuring a dedicated fridge drawer, a split-level primary drawer and an additional slimline drawer beneath the fridge compartment, this system provides layered storage across both sides of the vehicle.

Designed for extended touring and fully equipped builds, The Long Weekender ensures every item has its place — from food and recovery gear to smaller accessories.

Compatible with 30L Engel, Dometic and Bushman fridge drawers, as well as 40L Evakool and Ironman fridge drawers.

Best Suited For

- Extended touring and remote travel
- Fully built touring vehicles
- Owners carrying a wide range of equipment
- Those who prioritise structured, layered storage

Key Benefits

• Dedicated fridge drawer compartment
• Split-level primary storage drawer
• Additional slimline drawer beneath fridge
• Advanced organisation across both sides
• Built to Signature Series strength standards

The Long Weekender is designed for serious touring and refined storage control.

"The Long Weekender"

The Long Weekender - Fridge Drawer + Split Drawer + Slimline Fridge Storage

Maximum Touring Organisation. Fully Equipped.

The Long Weekender is closely related to The Classic Max with ample storage but switching out a large drawer for a fridge drawer instead to provide you that split of storage and fridge space. With an overall height of either 395mm high when using the Engel or Dometic fridge drawers or an overall height of 460mm when using the Bushman, Evakool or Ironman fridges – you will be so organised, you will be the envy at your next weekend away.

With options of different fridge drawers to suit your needs, you will be sure to find what you are looking for – we can accommodate 30L Bushman, 30L Engel, 30L Dometic, 40L Evakool or 40L Ironman fridge drawers which are a perfect size for a "weekend" away, a day trip to the beach/bush or as an overflow fridge or even freezer when you are towing. When ordering the fridge drawer will always be to the **PASSENGER SIDE** unless specified otherwise and pricing **DOES NOT** include the fridge drawer however RVSS can supply it for you if needed.

"The Traveller"

Specifications & Information

The Traveller - Full-Height Drawer + Low Drawer + Integrated Fridge Slide

Built for Bigger Fridges. Designed for Easier Access.

The Traveller is engineered for touring setups requiring larger refrigeration capacity while maintaining practical storage.

Featuring a full-height primary drawer, an additional low drawer and an integrated fridge slide, this configuration allows chest or upright fridges to sit lower in the vehicle — improving accessibility and weight distribution.

Ideal for extended trips or larger fridge requirements, The Traveller balances refrigeration, storage and usability in one refined system.

Best Suited For

- Touring setups running larger fridges
- Extended travel requiring increased food storage
- Owners wanting easier fridge access
- Builds prioritising lower fridge positioning

Key Benefits

• Integrated fridge slide (chest or upright compatible)
• Full-height primary storage drawer
• Additional low drawer for smaller gear
• Lower fridge positioning for easier access
• Improved weight distribution
• Signature Series strength and durability

Compatible With

Chest or upright fridge options.
Optional upright pantry available (see Add-Ons section).

The Traveller is designed for serious touring with larger fridge capability and smarter accessibility.

"The Traveller"

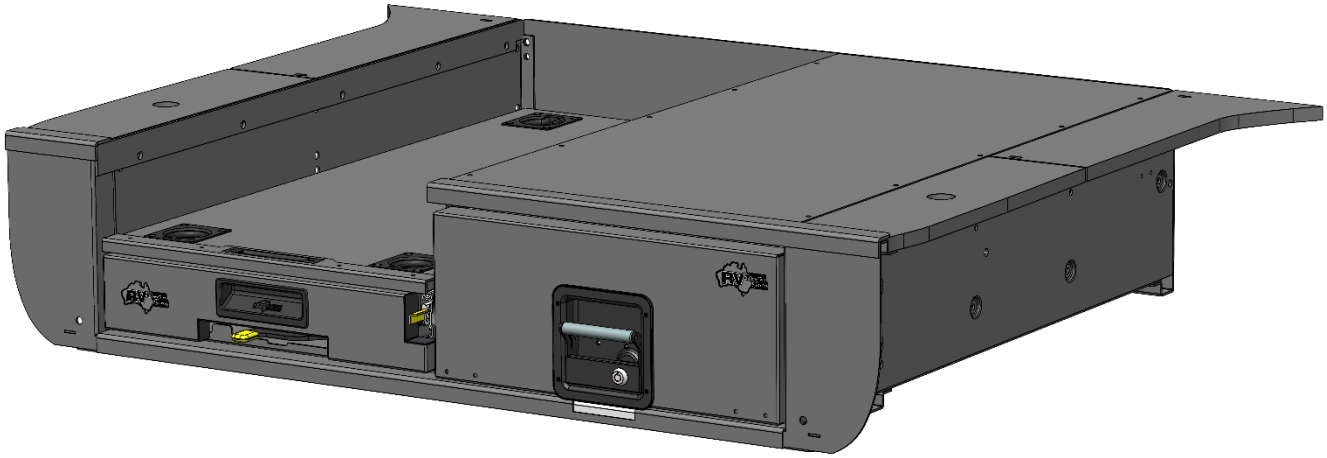
The Traveller - Full-Height Drawer + Low Drawer + Integrated Fridge Slide

Built for Bigger Fridges. Designed for Easier Access.

The Traveller has been designed to come standard with the Travelslide drawer and will always be situated on the **PASSENGER SIDE** unless specified otherwise. The codes on each vehicle page stipulate "small" or "large" and this is determined by the fridge size the customer intends to use.

The overall height of The Traveller is 275mm and in some vehicles this can alter the overall length of the drawer system however this is specified upon each vehicle specific page.

The cargo shelf is an optional item that can be added to the setup – whether it be at the time of ordering the drawers or later. The cargo shelf is perfect if you tend to pack items on top of the standard height drawers, the cargo shelf will protect the fridge and stop things from falling in behind the fridge when you slide it out, taking away that frustration of trying to fish things out of the way before the fridge can be slid back into the vehicle.



"The Traveller Plus"

Specifications & Information

The Traveller Plus - Split Drawer + Low Drawer + Integrated Fridge Slide

Advanced Organisation. Touring Ready.

The Traveller Plus builds on The Traveller platform by incorporating a split-level primary drawer, providing enhanced organisation alongside the integrated fridge slide and low drawer.

Designed for fully equipped touring builds, this configuration allows for structured storage of recovery gear, tools and accessories while accommodating larger chest or upright fridge options.

With the ability to add an upright pantry or cargo shelf, The Traveller Plus offers expanded flexibility for extended travel setups.

Best Suited For

- Extended and remote touring
- Larger fridge setups requiring structured storage
- Owners wanting layered organisation
- Fully built touring vehicles

Key Benefits

• Integrated fridge slide (chest or upright compatible)
• Split-level primary drawer with improved organisation
• Additional low drawer for smaller or flat items
• Lower fridge position for easier loading and access
• Compatible with optional upright pantry
• Compatible with optional cargo shelf (see Add-Ons)
• Built to Signature Series durability standards

The Traveller Plus delivers refined organisation for serious touring capability.

"The Traveller Plus"

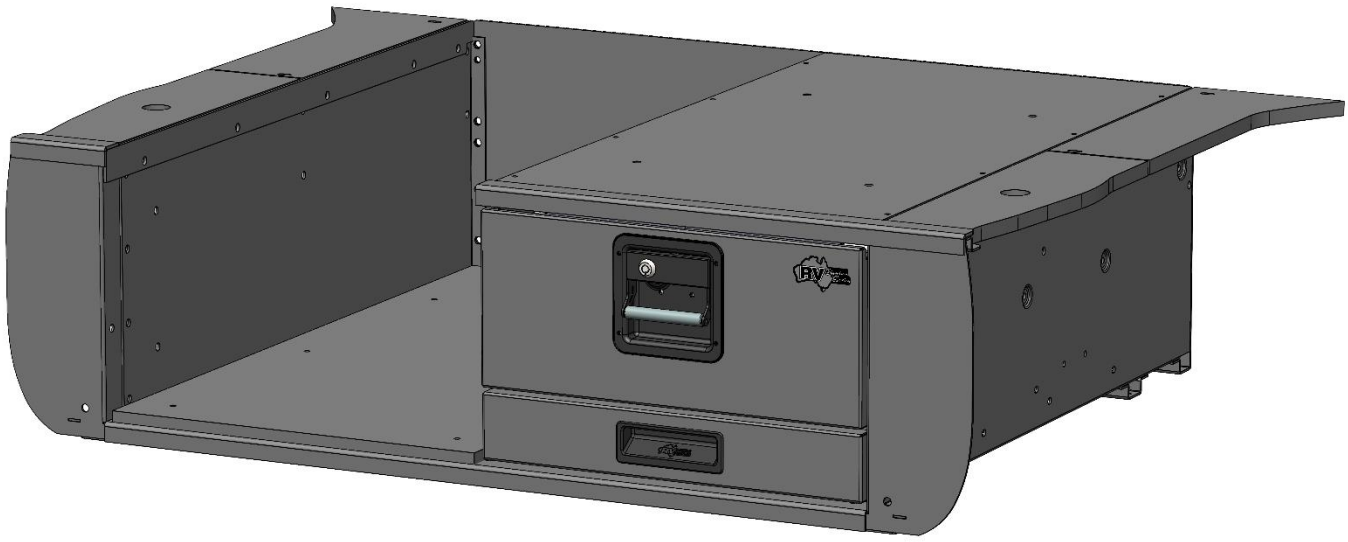
The Traveller Plus - Split Drawer + Low Drawer + Integrated Fridge Slide

Advanced Organisation. Touring Ready.

The Traveller Plus is very similar to The Traveller in many ways but has the added feature of a slimline drawer located underneath the larger drawer but the low platform will be left without a slide in it. You can always add a Travelslide drawer to this configuration if that is what you are seeking but if you don't need that extra drawer that is featured in the Travelside drawer, not to worry, you can add a stand alone fridge slide instead to allow access to your fridge. The low platform will always be situated on the **PASSENGER SIDE** unless specified otherwise. The codes on each vehicle page stipulate "small" or "large" and this is determined by the fridge size the customer intends to use.

The overall height of The Traveller Plus is 365mm and in some vehicles this can alter the overall length of the drawer system however this is specified upon each vehicle specific page.

The option to add a cargo shelf to this set up is also available to you depending on how you like to travel.



"The Nomad"

Specifications & Information

The Nomad - Double-Stacked Drawers + Low Drawer + Integrated Fridge Slide

Layered Storage. Built for Life on the Road.

The Nomad is designed for serious touring setups requiring high-capacity storage with integrated refrigeration.

Featuring double-stacked drawers (typically one standard-height and one trade-height), a low drawer and an integrated fridge slide, this configuration maximises vertical space while maintaining practical access to both gear and fridge.

The optional double shelf spanning the width of the system provides additional storage above the fridge area — ideal for soft bags, lightweight gear or touring essentials.

Compatible with chest or upright fridge options.

Best Suited For

- Extended touring and remote travel
- Setups carrying a wide range of gear
- Owners wanting layered, high-capacity storage
- Touring builds requiring large fridge integration

Key Benefits

• Double-stacked drawer configuration (standard + trade height)
• Additional low drawer for smaller or flat items
• Integrated fridge slide (chest or upright compatible)
• Optional full-width double shelf above fridge (see Add-Ons)
• Exceptional vertical space utilisation
• Signature Series strength and durability

The Nomad is built for those who pack thoroughly and travel confidently.

"The Nomad"

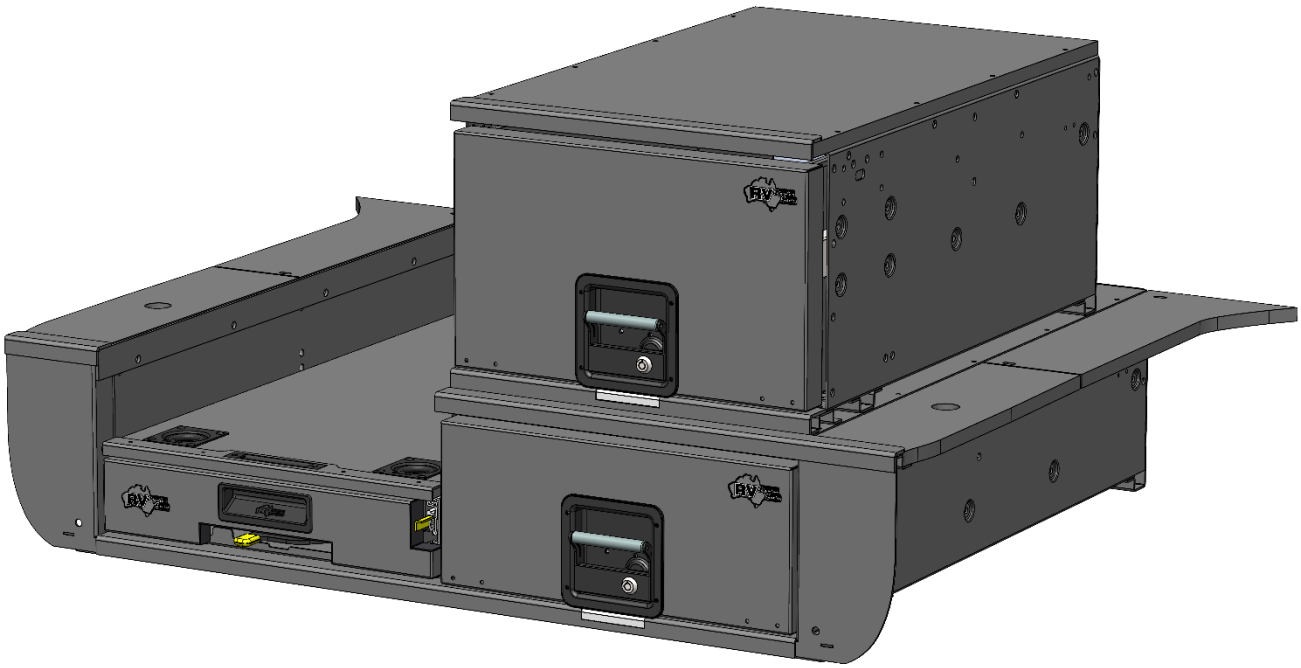
The Nomad - Double-Stacked Drawers + Low Drawer + Integrated Fridge Slide

Layered Storage. Built for Life on the Road.

The Nomad drawer configuration has been designed to come standard with the Travelslide drawer and will always be situated on the **PASSENGER SIDE** unless specified otherwise. The codes on each vehicle page stipulate "small" or "large" and this is determined by the fridge size the customer intends to use.

The Nomad consists of 2 x drawers stacked on the drivers' side with the bottom drawer being a standard height of 275mm high and the top drawer being a trade height drawer of 365mm high. This allows ample storage and the trade height drawer allows the storage of pantry items with ease providing the ability for items like sauce bottles, oil bottles to stand up in the drawer.

With the option of adding a double cargo shelf to your configuration to provide storage above the fridge, you can really set up the rear of the car with a full set up for that long term touring.



"The Nomad Plus"

Specifications & Information

The Nomad Plus - Double-Stacked Drawers + Low Drawer + Integrated Fridge Slide

Layered Storage. Built for Life on the Road.

The Nomad is designed for serious touring setups requiring high-capacity storage with integrated refrigeration.

Featuring double-stacked drawers (typically one standard-height and one trade-height), a low drawer and an integrated fridge slide, this configuration maximises vertical space while maintaining practical access to both gear and fridge.

The optional double shelf spanning the width of the system provides additional storage above the fridge area — ideal for soft bags, lightweight gear or touring essentials.

Compatible with chest or upright fridge options.

Best Suited For

- Extended touring and remote travel
- Setups carrying a wide range of gear
- Owners wanting layered, high-capacity storage
- Touring builds requiring large fridge integration

Key Benefits

• Double-stacked drawer configuration (standard + trade height)
• Additional low drawer for smaller or flat items
• Integrated fridge slide (chest or upright compatible)
• Optional full-width double shelf above fridge (see Add-Ons)
• Exceptional vertical space utilisation
• Signature Series strength and durability

The Nomad is built for those who pack thoroughly and travel confidently.

"The Nomad Plus"

The Nomad Plus - Triple-Stacked Drawers + Low Platform for fridge

Layered Storage. Built for Life on the Road.

The Nomad Plus drawer configuration has been closely designed to The Nomad with the low platform always being situated on the **PASSENGER SIDE** unless specified otherwise. The codes on each vehicle page stipulate "small" or "large" and this is determined by the fridge size the customer intends to use. This set up **DOES NOT** come standard with a slide or Travelslide drawer but can certainly be added to the set up.

The Nomad consists of 3 x drawers stacked on the drivers' side with the bottom drawer being a trade height of 365mm high and split with a slimline drawer at the bottom and the top drawer being a standard height drawer of 275mm high.

With the option of adding a double cargo shelf to your configuration to provide storage above the fridge, you can really set up the rear of the car with a full set up for that long term touring.

"The Tourer"

Specifications & Information

The Tourer - Triple Drawer Stack with Split Base Drawer

Purpose-Built for Upright Touring Setups.

The Tourer is engineered for fully equipped touring vehicles running upright fridge systems.

Featuring a three-drawer stack — including a split base drawer with integrated slimline storage and two additional upper drawers — this configuration delivers advanced organisation within a compact footprint.

Designed to complement upright fridge setups, The Tourer provides dedicated storage zones for recovery gear, tools, cooking equipment and accessories while maintaining easy accessibility.

Best Suited For

- Touring setups running upright fridges
- Owners prioritising structured organisation
- Long-distance and remote travel builds
- Fully equipped touring vehicles

Key Benefits

• Triple stacked drawer system
• Split base drawer with integrated slimline storage
• Additional upper drawers for layered organisation
• Optimised for upright fridge touring builds
• Efficient use of vertical space
• Built to Signature Series durability standards

The Tourer delivers refined organisation for complete touring control.

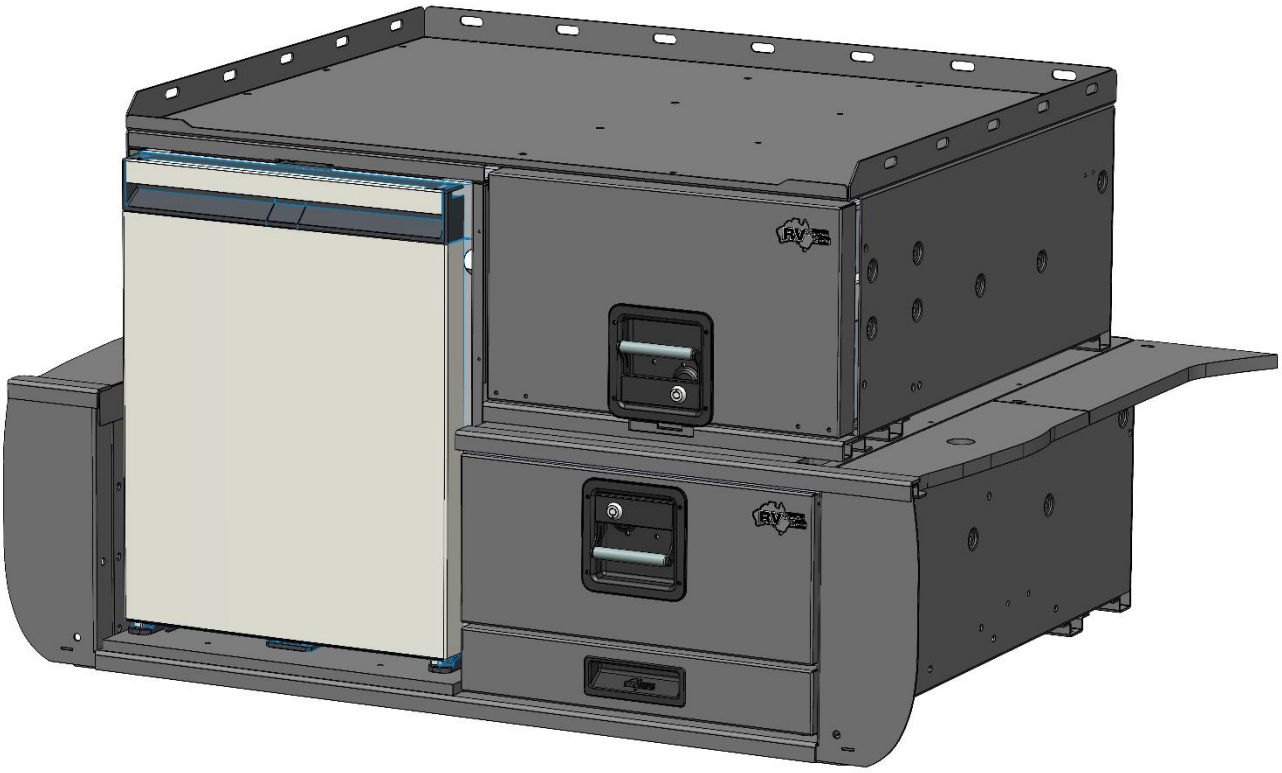
"The Tourer"

The Tourer - Triple Drawer Stack with Split Base Drawer

Purpose-Built for Upright Touring Setups.

The Tourer is the master set up of all the drawer configurations we offer. Comprising of triple stacked drawers, provision for fitment of an upright fridge at either 85L Bushman or 80L Dometic to provide ample fridge storage space and a cargo shelf spanning the width of the drawer configuration allowing you to pack above the fridge, this is the setup for those that are hitting the road for an extended period of time.

With the ability to set up your vehicle to have everything right at your fingertips, this configuration will be the talk of any campsite, the envy of many and the pride and joy of any owner.



Find Your Touring Set Up

Designed Around How You Travel

Every Signature Series configuration is built with the same strength, durability and Lifetime Warranty — the difference lies in how much organisation and refrigeration capability you require.

Whether you're heading off for weekends away or building a fully equipped touring vehicle, there's a configuration designed to suit.

Weekend Touring

Simple. Practical. Ready to Go.

Ideal for short trips, camping weekends and everyday versatility.

Recommended Configurations:

- The Classic
- The Weekender

Best for:

- Balanced storage
- Compact fridge setups
- Easy access without overbuilding

Extended Touring

More Capacity. Greater Organisation.

Designed for longer trips and larger fridge requirements.

Recommended Configurations:

- The Classic Plus
- The Weekender Plus
- The Traveller

Best for:

- Improved gear separation
- Larger fridge compatibility
- Structured storage zones

Fully Equipped Touring Builds

Maximum Organisation. Complete Capability.

Engineered for serious touring setups and remote travel.

Recommended Configurations:

- The Classic Max
- The Long Weekender
- The Traveller Plus
- The Nomad
- The Tourer

Best for:

- Layered storage systems
- Large refrigeration setups
- Fully built touring vehicles

Not sure which touring level suits your vehicle?
Our team can help you build the right system for your needs.

Pricing Information

Pricing Information

All pricing listed in this guide is Recommended Retail Pricing (RRP) and is inclusive of GST.

Prices shown do not include fitting, freight or any vehicle-specific installation requirements unless otherwise stated.

Installation and freight costs may vary depending on vehicle model, location and individual setup requirements. Please contact RV Storage Solutions or your authorised dealer for a detailed quotation.

Why Pricing Varies Between Vehicles

Signature Series systems are engineered for vehicle-specific fitment. Pricing may differ between models due to variations in:

- Vehicle tub dimensions and design
- Mounting systems and fitment requirements
- Material usage and configuration adjustments
- Model-specific components

Each system is designed to ensure optimal fit, safety and long-term durability for that vehicle.

Pricing Legend

*Price excludes fridge drawer.
**Price includes integrated Travelslide.
***Upright fridge sold separately.

For assistance selecting the right configuration or obtaining a fitted price, our team is here to help.
